SUPPLEMENTAL REISSUE DECLARATION

Sir:

I hereby declare that:

1. I am a citizen of Korea with the address as stated below next to my name.
2. I have reviewed and understand the contents of the specification and claims of the above-captioned reissue application and this reissue declaration.
3. I believe that I am the first and original inventor of the invention described and claimed in this reissue application and in U.S. Letters Patent No. 6,380,559 B1, which issued from U.S. Patent Application Serial No. 09/585,427 filed June 2, 2002, which claims priority under 35 U.S.C. § 119 to Korean Application Nos. 99-20515 (filed on June 3, 1999), 99-27140 (filed on July 6, 1999), 99-27548 (filed July 8, 1999) and 99-29796 (filed July 22, 1999).

4. I acknowledge my duty to disclose information which is material to the examination of this reissue application in accordance with 37 C.F.R. § 1.56(a).

5. I consider U.S. patent No. 6,380,559 (the '559 patent) to be partly inoperative by reason of claiming less than I had a right to claim because the original claims are unduly limited and may not provide an adequate scope of protection. For example, although independent claims of the '559 patent (claims 1, 4 and 12) each recite in the recite, "gate electrodes branched from the gate lines" the invention is not so limited. Rather, as discussed in the specification, for example, at column 9, lines 41-45. The "gate line assembly includes a gate line 22..., a gate pad 24..., and a gate electrode 26," (see also '559 Patent, col. 19, lines 22-23).

6. All errors being corrected in this reissue application up to the time of filing this declaration arose without any deceptive intention on my part.

7. I hereby revoke all prior powers of attorney and appoint the practitioners associated with Customer No. 22150 as attorneys and/or agents to prosecute this application and to transact all business in the Patent and Trademark Office connected therewith.

Address correspondence to the address associated with Customer No. 22150 which is:

8. I have reviewed and understand the contents of this Reissue Declaration, and all statements made herein of my knowledge are true, and all statements made on information and belief are believed to be true; and further these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the U.S. Code and that

such willful false statements may jeopardize the validity of the application or any patent reissued thereon.
